DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-16 are rejected under 35 U.S.C. 102(b) as being anticipated by O'Brien.

O'Brien discloses a threaded implant 10 which is tapered and has two different types of threads for cutting into different types of bone tissue.

Art Unit: 3303

Response to Arguments

4. Applicant's arguments filed 1/7/2002 have been fully considered but they are not persuasive.

Applicants arguments are directed toward the assertion that the O'Brien implant does not have a "slight conicity" as required by instant claim 1. Applicant references col. 6, lines 17-20 where it appears O'Brien is describing thread segments 34.

However, upon inspection of the drawings of O'Brien, it is clear that the implant has a tapered lower threaded portion 50. This tapered portion gives the implant a slight conicity, especially along this portion. Claim 1 requires that the conicity only extend at least part of the length of the implant. Thus, claim 1 is met by O'Brien

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 3303

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
